He can be whatever she wants him to be, when they're on line

Verse 1

Everynight she's in her room, sitting there and starring at the screen

There's no sound nobody's on the phone, her friends are never spoken to or seen

He says his name is Justin, he plays bass in a band

He says he can relate to her and his folks don't understand.

Chorus

When a lonely girl, meets a naughty guy

He can really mess with her mind

He can be whatever she wants him to be, online

When a lonely girl meets a naughty guy,

He can wait just biding his time

Squeeze it and tease it then mess with her mind

Online, online, when they're online

Verse 2

She's in love, can't see the danger signs, she ignores the warning and the rules

All alone inside the danger zone, he knows her name and where she goes to school

He says he'd like to meet her, maybe on Friday night

He sends a pic, she sends one back, so he knows what she looks like

E SAFETY SONG COMP.

She loves talking to him all day
She thinks he's really kind
She thought he was blonde but no he was grey
No one knows what is on his mind
So you all out there BE SAFE ONLINE

E SAFETY SONG COMP.

She thinks he's kind, she thinks he's her age,
But she's just getting trapped like a bird in a cage
Who is this guy really – he's just plain sick
And when he gets found out he's sure to get nicked
There is no need for this – no need at all
If she gives him her number she'll sure get threatening calls
Is his name really Justin? Or really a paedophile
He may fill up her life with fright or just for a while.

E SAFETY SONG COMP.

He can find her when she's all alone
When she might not have any credit on her mobile phone
He is telling her lies
He is in disguise and she must be wise
But when they shall meet side by side
He **will** make her feel horrible inside

E SAFETY SONG COMP.

Kids are vulnerable and can be easily deceived
You get told their like you and then you believe
If they want to meet up with you in a quiet place
And if you have never seen their real world face
Tell the police and make sure your safe
